

PolyDraw user guide

Create a new canvas

To create a new canvas,

1. select the  icon at the bottom left corner
2. Fill up the form by entering a desired height, width and background color
3. Select “submit”

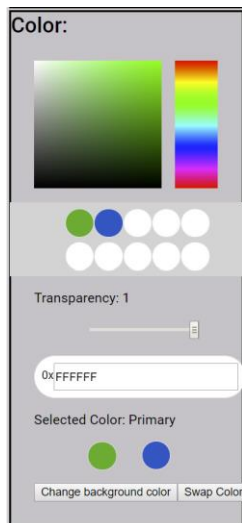

Change Tool

You can select your drawing tool by clicking on the icons in the attribute bars at the left of your screen.

Change Color

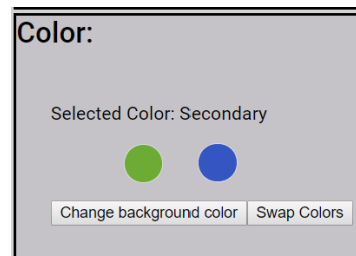

You can view the currently selected colors (primary and secondary) in the attribute bar in the “Color” box at the left of you screen.

To change a color, click on the color circle and a color palette will appear.

You can use the color palette to change color. Simply click in the color palette for the desired color.

You can also input the hexadecimal value for the desired color.
